Noel Anderson
Community Planning & Development Director
City of Waterloo, Iowa

Dear Noel,

This is to confirm that the City of Waterloo Waste Management Department is responsible for the ongoing maintenance of the Dry Run Creek Levee system within its \$10.5 million annual operating budget.

It is my understanding that funds are being sought from the I-Jobs program to assist in the construction of the Dry Run Creek Flood Levee Improvements.

The Waste Management Department of the City of Waterloo will accept responsibility for the proper ongoing maintenance for the Dry Run Creek flood levee improvements as a part of our ongoing duties for the City of Waterloo.

Sincerely,

Larry Smith
Superintendent, Waste Management
